

Part No.: R3563C03-00
 Nominal Diameter: 500mm
 Test Pressure: 2Bar(29PSI)
 Points: 6
 Design Temperature: - 40°C ~ + 200°C
 Cover Weight: 21.5kg
 Neckring Weight: 9.5kg

Temperature range depends on the seal.
 Neckring profiled to suit tank radius.

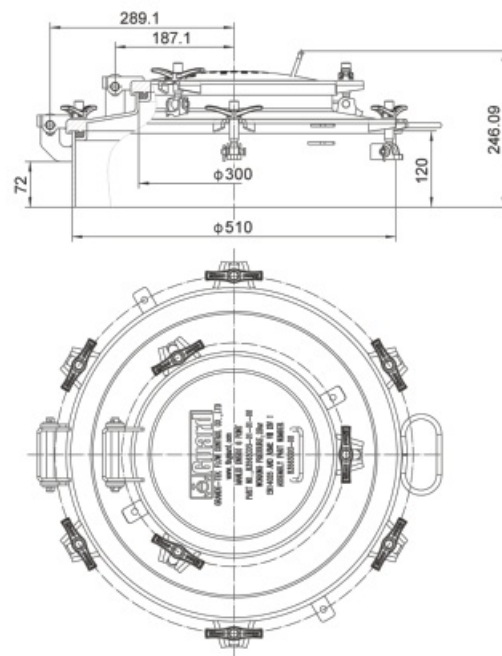

DN500 Crane Pipe Manlid Assembly(with DN300 Inspection) -- 6 points.

The crane pipe manlid and crane pipe inspection are combined to reduce the opening in the tank body.

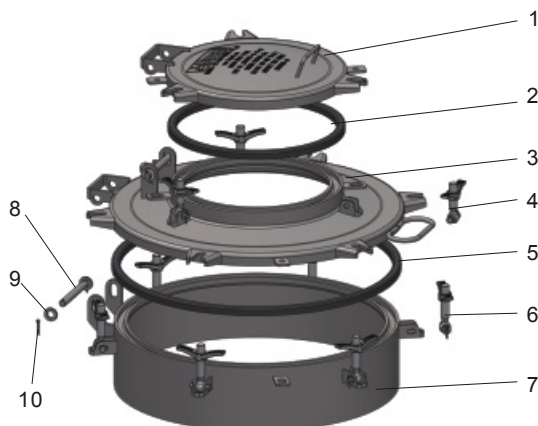

The sealing cover is mounted on the neckring and is provided separately.

Optional - Custom manlids can be made according to the size of the crane pipe
